

BALAVIGNESH A U

Chennai, India | In: +91 6374964477 | aubalavignesh1010@gmail.com | bala1415.github.io
www.linkedin.com/in/balavignesh1010 | github.com/Bala1415

SUMMARY

AI & Data Science undergraduate with hands-on experience in Python, FastAPI, React, and AI application development through multiple internships. Experienced in building scalable backend systems, REST APIs, and full-stack applications. Passionate about software engineering, problem solving, and developing efficient, production-ready solutions.

EDUCATION

SRM Valliammai Engineering College

Bachelor of Technology in Artificial Intelligence and Data Science
Cumulative GPA: 7.6/10

Chennai, India
Expected March 2027

SIVANANDA RAJARAM SENIOR SECONDARY SCHOOL

Higher Secondary (Class XII)
Percentile: 76%

Chengalpattu, India
April 2023

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, JavaScript, Flutter.

Core Concepts: Data Structures & Algorithms, DBMS, OOPS, Computer Networks, OS, System Design Basics.

Frameworks & Libraries: React, React Native, Flask, Fast API, Node.js

AI / ML: NLP, Machine Learning Workflows, Model Training & Evaluation

Databases & Tools: MongoDB, PostgreSQL, Git, Github.

INTERSHIPS

ZUNTRA DIGITAL – AI Agent Intern (AI Agent Development)

Chennai
Jun 2026 – Jul 2026

- Developed an AI-powered browser extension to automate enterprise workflows, integrating LLM-based agents with browser automation for intelligent task execution.
- Designed and implemented backend APIs using Python and FastAPI, enabling secure communication between the browser extension, backend services, and enterprise platforms.
- Collaborated with the engineering team to build scalable, production-ready AI features with a focus on performance, reliability, and seamless user experience.

DOORBOX.AI – SDE Intern (Android App Development)

Chennai
Feb 2026 – April 2026

- Designed and implemented backend APIs using Flask/FastAPI for industrial inspection workflows, enabling real-time report generation and seamless frontend integration.
- Integrated front-end components with Flask-based FAST APIs, enabling real-time inspection reporting and document workflows.

INFOSYS SPRINGBOARD AI Engineer Intern

Remote
Nov 2024 – Jan 2025

- Gained hands-on experience in end-to-end ML workflows, including data preprocessing, model training, and evaluation
- Applied Python and applied AI concepts to real-world case studies and problem statements.

UNIVERSITY PROJECTS

SITESENSE – Intelligent web navigation – Mini Project

Jan 2026

- Developed a RAG-based AI chatbot using LLMs and vector search for accurate website query handling
- Enabled semantic retrieval and smart page redirection to improve user navigation.

ALTUNO – AI FINANCE MANAGEMENT APP

Nov 2025

- Built a cross-platform mobile application using React Native and Firebase for real-time data synchronization
- Implemented expense categorization, income tracking, and monthly analytics tailored for student users.

ACHIEVEMENTS

- Completed three industry internships in AI Engineering, Full-Stack Development, and Android Application Development.
- Participated in 5+ national-level hackathons, building AI and software solutions in competitive environments.
- Developed AI-powered and full-stack applications using Python, React, FastAPI, Flask, Firebase, and modern machine learning workflows.
- Successfully completed the Infosys Springboard AI Internship, gaining practical experience in end-to-end machine learning workflows.

CERTIFICATIONS

- **AWS** Cloud Practitioner – GEN AI
- **NPTEL** - Programming in java, Python for Data Science
- Microsoft learn – AI, Data Analysis, Cloud System

HACKATHONS

- LLM Healthcare -SRM University
- Hack The Horizon - Coimbatore
- Hackgenix – Sathyabama University
- Tiforage'26 – Rajalakshmi Institute of technology
- Cliqtrix'26 – ZOHO Corporation

Languages: English, Tamil.
