 Chennai, India

 <https://github.com/Bala1415>

SUMMARY

Motivated and sharp AI & Full-Stack Developer with hands-on experience building fast, reliable backend systems and clean, responsive interfaces. Skilled in Python, MERN stack, FastAPI, and modern ML workflows with practical projects across speech recognition, sentiment analysis, and real-time video processing. Strong at turning raw ideas into working APIs, optimizing models for GPU performance, and crafting end-to-end solutions that actually scale. Curious, consistent, and driven to build tech that’s both meaningful and future-ready.

EXPERIENCE

Web Developer

Pk Podnik

08/2025 - 09/2025

 Chengalpet, India

Industrial hardware and safety equipment retailer

- Built a responsive business website to help the company improve its online presence and customer outreach.

Full Stack Developer

Inspectx LLP

01/2025 - 08/2025

Providing AI-driven solutions for automating industrial inspections and reporting processes.

- Worked on a modern industrial inspection platform, building responsive UI components with React + Tailwind and connecting them to a Flask backend.
- Developed front-end modules for an industrial inspection platform using React and Tailwind CSS.
- Built and integrated document workflows and reporting UI, improving task visibility.
- Worked closely with the backend team using Flask APIs to ensure smooth data communication.

AI Engineer

Infosys Springboard

11/2024 - 01/2025

- Gained hands-on experience in ML workflows — data preprocessing, model training & evaluation.
- Applied Python and applied AI concepts in real-world tasks and case projects.
- Strengthened analytical and problem-solving skills through structured learning challenges.

SKILLS

<u>Python</u>	<u>Java</u>	<u>HTML 5</u>
<u>Android development</u>		<u>MS Office</u>
<u>JS (basic)</u>	<u>React</u>	<u>REST API</u>
<u>Node.js</u>	<u>Flask</u>	<u>MongoDB</u>
<u>SQL</u>	<u>TypeScript</u>	<u>UI/UX</u>
<u>React Native</u>		<u>PostgreSQL</u>
<u>CSS3</u>	<u>Flask</u>	<u>NLP</u>

EDUCATION

Bachelor of technology in Artificial Intelligence and Data Science
SRM Valliammai Engineering College
2023 - 2027(Expected) | Chennai
Year: 3rd Year
CGPA : 7.6 (till sem 4)

STRENGTHS

Core skills
Strong full-stack development skills and experience in AI and Data Science.

UI Quality & Design Consistency
Delivered responsive and visually appealing interfaces that improved navigation flow and user clarity.

Cross-platform App Development
Developed and delivered cross platform application for Android and iOS using React Native.

LANGUAGE

English Proficient	
Tamil Native	
Hindi Basic	

AICOGNIRTON - Technical Club

Technical Lead

SRM Valliammai Engineering College

06/2024 - Present

- Served as technical lead for 2 major college symposiums & multiple department events
- Led a team in managing tech infrastructure, event websites, and registration systems
- Organized workshops encouraging student participation in AI & tech development

COURSE CERTIFICATIONS

- Introduction to AI (Simplilearn)
- Python Full Course (Simplilearn)
- Data Science (Coursera)
- Python in Data Science (NPTEL)
- Data Structures and Algorithms (NPTEL)
- Programming in Java (NPTEL)

PROJECTS

AI powered Legal Chatbot

AI-powered legal assistant project with 3D avatar.

- Designed an AI-powered legal assistant integrating a 3D avatar and LLM for real-time query resolution.
- Combined NLP, legal data processing, and immersive UI to enhance user experience and accessibility in legal tech.

Altuno - AI Finance Management App

A cross-platform app that helps students track income & expenses with smart insights.

- Built using React Native + Firebase for real-time data sync.
- Designed a clean, user-friendly interface tailored for student needs.
- Implemented features like expense categorization and monthly analytics.
- Improved personal finance awareness for early users during testing.
